

AFTAB ALAM

AI/ML Engineer — Python Developer — Generative AI
Chandigarh, India — +91-9721839101
aftabalamkhan8932@gmail.com
[GitHub](#) — [LinkedIn](#)

PROFESSIONAL SUMMARY

AI/ML Engineer with hands-on experience in building real-world applications using Python, Generative AI, and automation tools. Skilled in developing LLM-powered applications, Streamlit-based tools, and workflow automation systems. Strong foundation in data analysis, machine learning, and API integration with a focus on practical and scalable solutions.

TECHNICAL SKILLS

Programming: Python, SQL
Libraries: Pandas, NumPy, Matplotlib, Seaborn
AI/ML: Machine Learning, NLP Basics, LLMs, Prompt Engineering
Generative AI: Gemini API, OpenAI API, Text-to-SQL, RAG (Basics)
Frameworks: Streamlit, FastAPI (Basic)
Automation: Selenium, n8n Workflow Automation
Databases: MySQL
Tools: Git, REST APIs
Concepts: EDA, Data Processing, API Integration

PROFESSIONAL EXPERIENCE

Data Science / AI Trainer

Sukrala IT Services Pvt. Ltd., Chandigarh Mar 2026 – Present

- Deliver training in Python, Data Science, and AI fundamentals to students
- Guide learners in building real-world projects including AI apps and automation tools
- Simplify machine learning and LLM concepts into practical applications

AI/ML Trainer

Antier Solution Pvt. Ltd. (via ASB Academy), Mohali Jun 2025 – Feb 2026

- Trained 100+ students in Python, Machine Learning, and AI concepts
- Designed project-based curriculum for hands-on learning

AI/ML/DS Trainer

Excellence Technology, Mohali Jul 2024 – Feb 2025

- Mentored students on data analysis, ML basics, and Python programming
- Conducted practical sessions on real-world datasets

AI/ML Intern

Excellence Technology, Chandigarh Jan 2024 – Jun 2024

- Worked on ML models and data preprocessing tasks
- Assisted in building small-scale ML pipelines

KEY PROJECTS

Aura AI – Multi-Agent Automation System

- Built a multi-agent system for automating content generation and workflows
- Integrated LLM-based agents with tool execution for task automation
- Designed scalable architecture for modular AI workflows

Text-to-SQL AI Application (Streamlit + Gemini API)

- Developed application to convert natural language into SQL queries
- Integrated Gemini API for intelligent query generation
- Connected with MySQL for real-time query execution

AI Engineer Hub (AI Platform)

- Built centralized platform to manage AI tools and projects
- Integrated automation workflows and AI-based utilities
- Focused on usability and real-world application integration

AI Powered Code Editor

- Developed code editor with AI-assisted suggestions and automation features
- Integrated LLM-based code generation and debugging support
- Improved developer productivity through AI workflows

Automated EDA Web Application

- Built Streamlit app for automatic data analysis
- Implemented visualization, missing value detection, and statistics

Restaurant Chatbot (n8n + Webhook + Google Sheets)

- Created chatbot using n8n workflows and webhook integration
- Used Google Sheets as a dynamic response database

EDUCATION

Bachelor of Computer Applications (BCA)

JS University, India

2023 – 2026

CERTIFICATIONS

- Python for Data Science
- AI/ML Training Certification

ADDITIONAL INFORMATION

- Strong interest in AI, automation, and real-world problem solving
- Actively building projects in Generative AI and workflow automation
- Open to relocation and international opportunities
